All Scalix products share a mark of quality; they are solid, mature, reliable products. They are all based on Scalix Collaboration Platform – a robust, enterprise-class email and group calendaring solution. The Scalix line of products comes in a variety of editions, designed to meet the needs of organizations of every size. The editions include:

#### ENTERPRISE EDITION: Multiple Servers & High Availability

Scalix Enterprise Edition is our industrial strength solution designed for the demanding needs of enterprises. It supports multiple servers and high availability, and scales for even the largest organizations. A free trial is available.

#### SMALL BUSINESS EDITION: Single-Server Edition

Scalix Small Business Edition is our single-server solution designed for small businesses. It includes a rich package of business functionality including a means to instantly recover deleted items on a user-specific basis, wireless device support and more.

#### HOSTING EDITION: Software as a Service Model

Scalix Hosting Edition is our multi-tenant solution designed for hosters and MSPs looking to provide customers with a range of outsourced e-mail and group calendaring options. Rich Outlook support means this Edition can be used to offer packages comparable to Hosted Exchange.

#### COMMUNITY EDITION: Free for up to 5 Outlook users.

Scalix Community Edition is a product we've packaged and made available for free so every organization can use our robust messaging solution. It includes Scalix Collaboration Platform and 5 Premium Users.

## PREMIUM AND STANDARD USERS

Each edition comes with a different ratio of Premium and Standard users.

COMPARE SCALIX USER TYPES		
Standard User Capabilities	All Premium User Capabilities	SBE/EE/HE Premium User Capabilities

1 Multi-Tenancy cannot be combined with Multi-Server operations, i.e. a domain run as part of a multi-tenant setup cannot span multiple servers.  
2 Scalix Migration Tool for Exchange, Scalix AntiSpam and Scalix ZeroHour AntiVirus are available at additional cost for all Scalix editions except Community Edition. Contact our Scalix Partners or sales department for details.  
3 Recovery folder functionality is only available to Premium Users on commercial versions of Scalix.  
4 Wireless functionality enabled by the 3rd party NotifyLink product requires a Premium User account.  
5 The Connectors for Outlook and Evolution are only available to Premium Users.  
6 Based on version of Small Business Edition, please see our pricing page for details.  
7 Scalix ActiveSync is available at additional cost for Scalix Small Business Edition and Enterprise Edition. Contact our Scalix Partners or sales department for details.
